## CHAMPION KEELOBE TROUBLE MAKER (AKA: 'ALVIN')

## Champion Keelobe Trouble Maker (AKA Alvin)

**Breed:** Golden Retriever

**Sire:** Keelobe Gold Mamba

**Dam:** Keelobe Trouble is my Business

**Whelped:** 11th June 2019

**Breeder:** Sarah Orr, Gawler, South Australia

Never was a dog more aptly named than our golden boy Alvin! Named after a very naughty chipmunk by our daughter Harriet, and just like his namesake, Alvin is so mischievous and curious, and this, coupled with his kind, biddable nature just epitomises his wonderful breed.

Commencing his show career as a baby puppy in October 2019, Alvin, through many ups and downs, attained his Champion title at the Palmerston Gundog Show in July 2021. As our first show dog, his tolerant and ever forgiving nature was always to the fore as he achieved many wins and places - despite his newbie handler! Together we have proudly been awarded a Best in Group, Runner Up in Group wins and received the nod for many Class placings.

Our wonderful journey has been made much more enjoyable through the support and encouragement we have received from the DogsNT community. There are so many to thank for their guidance (you know who you are), but a special mention goes out to Julie Blight and Sarah Gordon. We are truly thankful for your incredible mentoring.

We will be eternally grateful to Alvin's breeder Sarah Orr for her trust in us and her ongoing unmitigated support and appreciation for his achievements. Alvin is not 'just a dog', he is a loved family member and an absolute joy to live with. He is a credit to both his breeder and his illustrious ancestors.

Alvin is proudly campaigned by Monica, Anthony and Harriet Flack, Lyons, Darwin, NT.

## Official Notices

# Ehrlichiosis Know the signs

**Ehrlichiosis, a tick-borne dog disease, has been detected in the Northern Territory and is present in most local government areas, including Darwin, Palmerston, Darwin rural area, Katherine and many remote communities.**

The bacteria is transmitted to dogs by the brown dog tick and can cause:

- fever
- lethargy
- loss of appetite
- weight loss
- swelling of the chest or front legs
- cloudy eyes or conjunctivitis
- pain and stiffness
- bleeding disorders such as nosebleeds or bruising on the gums or belly.

It is important to seek veterinary advice and treatment, as ehrlichiosis in dogs can resemble other conditions with similar signs, and if not properly treated, can result in death.

**If it looks suss, call us 1800 675 888.**

### VALE

### Mr ALLAN ANDREW WATT

29th October 1948 – 10th September 2021

It is with great sorrow and the heaviest of hearts that we advise of the passing of long-time member Mr Allan Watt. Surrounded by his beloved dogs, Allan passed away peacefully at home on Friday the 10th of September 2021.

Originally from New Zealand, Allan arrived in Australia in the 1970s and quickly made the untamed Northern Territory his home. He spent most of his working life on trawlers sailing the tropical azure seas then, before retirement, he worked remotely in the mining industry.

Whilst Allan and his wife Marlene have bred and exhibited many outstanding champion dogs, Allan's passion was his elegant sighthounds. We will fondly remember the tall, calm, bearded, gentle man with the kindest of hands quietly and reassuringly steering his ethereal hounds into a Best in Show line-up.

Always stepping up to help, advise, mentor and volunteer, Allan was usually the first to arrive at an event and the last to leave - and he would not go until everything was squared away properly.

Slow to anger and one who never raised his voice, Allan's mischievous laugh, wisdom, twinkling eyes and dry sense of humour will be forever missed.

On behalf of DogsNT Council and Members, we extend our condolences and deepest sympathies to his soul mate Marlene, and to Allan's sons and family.

Farewell, and rest in peace Allan and 'may you have fair winds and following seas'.

*"Me tangi, kāpā ko te mate i te marama" (Let us mourn and weep for him, for truly he dieth not as the moon dies)*

## DOGS NT RULE AMENDMENTS

### SECTION 3 – EXHIBITIONS

#### **AMENDED RULE: PERMISSION: PRIOR TO AN EVENT - 3.4.4:**

**NOTE:** Due to the COVID-19 situation - the current DogsNT **Rule 3.4.4** relating to the lodgement of pre-exhibition paperwork no less than four (4) months prior be lifted (no longer apply), from the 7th of May 2020 until the **31st of December 2021**.

**ALL official DogsNT pre-exhibition paperwork is now required no less than four (4) calendar weeks before the proposed event. (12/08/2021)**

#### **PREVIOUS RULE: PERMISSION: PRIOR TO AN EVENT - 3.4.4:**

**NOTE:** Due to the COVID-19 situation - the current DogsNT **Rule 3.4.4** relating to the lodgement of pre-exhibition paperwork no less than four (4) months prior be lifted (no longer apply), from the **7th of May 2020 until the 31st of August 2021**.

**ALL official DogsNT pre-exhibition paperwork is now required no less than four (4) calendar weeks before the proposed event. (28/10/2020)**

#### **AMENDED RULE: PROCEDURES - 3.31.3:**

Undue interference in any way with other dogs or their handlers whilst in the judging Ring, including 'Baiting' [ref: DogsNT Constitution: Part 1 – Preliminary: 4. Definitions (8)], by any person inside the Ring shall not be permitted. In the event of such an occurrence, the Ring Steward shall be empowered to suspend judging and order the removal from the judging ring of the person causing the interference and/or the dog handled by such person. **(08/21)**

#### **PREVIOUS RULE: PROCEDURES - 3.31.3:**

Undue interference in any way with other dogs or their handlers whilst in the judging Ring by any person inside the Ring shall not be permitted. In the event of such an occurrence, the Ring Steward shall be empowered to suspend judging and order the removal from the judging ring of the person causing the interference and/or the dog handled by such person.

# Official Notices

## FCI NOTICES

### LIFTING OF PROVISIONAL SUSPENSION OF FULL MEMBERSHIP RIGHTS

With reference to our circular 15/2016 dated 22/04/2016 and since **the Federación Canina de Venezuela (FCV)** now fulfils all full membership duties in accordance with Article 8.3 of the FCI Statutes, the FCI General Committee decided on the occasion of its online meeting on 27/07/2021 to lift - **with immediate effect** - the provisional suspension of FCV full membership rights. As a result, the above circular becomes null and void and the FCV remains a full member of the FCI.

### SUSPENSIONS

The **Asociația Chinologică Română (AChR)** informs the FCI members and contract partners that **Mrs Cristina EPURAS (RO38)** has been suspended as **international show judge, for a period of 2 years**, from **8/09/2021** until **7/09/2023**. The FCI Judges Directory has also been updated by the AChR accordingly.

The **Slovenska Kynologicka Jednota (SKJ)** informs the FCI members and contract partners that **Mr Sergej VANZHA (SK1)** has been suspended as **international show judge, for a period of 5 years**, from **1/09/2021** until **31/08/2026**. The FCI Judges Directory has also been updated by the SKJ accordingly.

**Account No:** 184779572

### WELCOME NEW MEMBERS

Master A White

We would like to extend a warm welcome to our new and returning Members. We are thrilled you have joined DogsNT and we hope that you will explore the many opportunities now available to you and your dog. Please enjoy the various activities that our Affiliated Clubs have to offer. Details of these can be found within this magazine.

## ANKC Notices

### ANKC NOTICE: EMERGING DISEASE - EHRLICHIOSIS IN DOGS

Ehrlichiosis is a tick-borne disease affecting primarily dogs. It is not transmitted from dog to dog, transmission only occurs through infected ticks, the main one being the brown dog tick. The brown dog tick is widespread throughout mainland Australia. No brown ticks have been found in Tasmania. While ticks are mostly coastal, they can be found further inland.

Ehrlichiosis is the disease that is caused by a tick-borne bacteria called Ehrlichia Canis. Once a dog has been bitten by an infected tick, there are 3 stages of infection:

1. Acute or early phase (3-4 weeks)
2. A subclinical phase (months to years)
3. Chronic or long-term stage. (Months to years)

Symptoms include fever, lethargy, enlarged lymph nodes, loss of appetite, discharge from the eyes and nose, weight loss, anemia, and bleeding disorders such as nosebleeds or bleeding under the skin that looks like small spots, patches or bruising.

The severity of symptoms varies considerably between dogs. The incubation period is 1-3 weeks after the tick bite, but the chronic form may not manifest for months or years following infection. PCR and ELISA tests give the most accurate diagnosis along with comprehensive blood tests. Affected dogs require veterinary treatment and supportive care, the earlier this is diagnosed and treated the better. Usually, these dogs are treated with tetracycline drugs for a minimum of 4 weeks, shorter treatment periods may result in subclinical carriers. Seronegative PCR tests will indicate if the infection has cleared.

If not properly treated these dogs can and do die.

### DISTRIBUTION

This disease can be found worldwide, particularly in tropical and subtropical areas. Once the disease is in the brown dog tick population, it is very difficult to control. German Shepherds and Siberian Huskies are predisposed to develop more severe signs of disease with a worse prognosis (reduced cell-mediated immune response).

In extremely rare cases, infected ticks may infect people, however the species of Ehrlichia that affects humans have not yet been detected in Australia.

Ehrlichiosis is a nationally notifiable disease, and the Government is conducting surveillance testing of dogs, particularly in the far north of Western Australia, Northern Territory and far north Queensland. The Kimberly and Pilbara regions are two areas affected in WA, along with Katherine and Alice Springs in the NT.

Dogs from affected areas are being monitored and their movement limited. Dogs moving from these areas could be required to be tested prior to movement and only travelling with healthy dogs that are on an effective tick control program.

## ANKC Notices

### ANKC NOTICE: EMERGING DISEASE - EHRlichiosis in Dogs

#### PREVENTION

Maintain dogs on a tick control program – ensure you do not run out of time before treating again, even 2-3 days late could cause issues.

Avoid taking dogs into tick infected areas such as the bush and long grass, especially on coastal areas.

Inspect your dogs for ticks daily for 5-6 days after being in tick infested areas.

#### TRAVELLING

The most likely way this disease will spread is by the transport of dog's interstate. Dog exhibitors like to travel far and wide for shows, often interstate. We should all be vigilant with providing tick control measures and renewing these before we travel!

Do not take dogs running along beaches, through the bush etc without adequate tick prevention. Be aware at some shows, the grounds may back onto bush, do not walk your dogs through these areas.

#### LONG TERM

We have to be aware that this disease will in all probability become far prevalent and widespread over the next 10 years. Tick prevention should become second nature especially when travelling.

Dr Karen Hedberg BVSc | ANKC Canine Health & Wellbeing Committee Chairperson  
16th July 2021

### ANKC: CHEDS FORM UPDATE

#### ANKC LTD CANINE HIP & ELBOW DYSPLASIA REPORT SUBMISSION FORM: AMENDMENT.

In accordance with Item 4.2.4 of the June 2021 Special Board meeting minutes, the ANKC Ltd Canine Hip & Elbow Dysplasia Report Submission Form has been amended to include a check box confirming that the dog has not previously been scored under the ANKC Ltd Canine Hip & Elbow Dysplasia Scheme.

For more information and to download the form, please visit the ANKC website link below:

<https://ankc.org.au/HealthAndWelfare/?id=2516>

## ANKC Notices

### ANKC: SCENT WORK TRIALS UPDATE

#### **REGS PART 3N - REGULATIONS FOR THE CONDUCT OF SCENT WORK TRIALS TRAINING SCHEME: REVISED.**

Refer to Item 7 in the Meeting Summary of the ANKC June 2021 Special Board meeting where it indicated the effective date for the amendment to Clause 1.1 of Regulations Part 3N – Regulations for the Conduct of Scent Work Trials/Judges Training Scheme was 1 January 2022.

Further consultation with the Board of Directors has confirmed the majority agreed to this amendment based on the understanding the amendment would be effective from 1 July 2021. As a result, the effective date will be 1 July 2021.

The Meeting Summary on the ANKC website has been updated accordingly. Further consultation with the Board of Directors has confirmed the amendment is now effective from the 1st July 2021.

For further information, please visit the ANKC website link below:  
<https://ankc.org.au/AboutUs/?id=1229>

### ANKC: AFGHAN HOUND SURVEY

Responses to the survey are required by the 8th OCTOBER 2021.

**RE: MINIMUM BREEDING AGE REQUIREMENTS FOR REGISTRATION OF AFGHAN HOUND PUPPIES ON THE MAIN REGISTER.** This survey applies to any Member of a Canine Control affiliated with the ANKC Ltd who is the owner of a registered Afghan Hound. In the interests of the breed, please read this survey carefully.

Access the survey via: [www.surveymonkey.com/r/NWC7NF2](http://www.surveymonkey.com/r/NWC7NF2)

#### **THE ANKC LTD AND THE ANKC LTD NATIONAL CANINE HEALTH AND WELLBEING COMMITTEE RECOMMEND THAT:**

The ANKC Ltd has resolved to conduct a Survey of all Afghan Hound owners recommending that Litter Registration Limitations are to be applied to litters mated on or after 1st June 2022:-

The Minimum Breeding Age for Afghan bitches is 24 months at the time of mating (unless a veterinary certificate is produced stating that for health reasons the bitch should be mated before 24 months).

If litter registration limitations are approved for the Minimum Breeding Age for Afghan Hound bitches, breeders of litters whelped on or after 1st June 2022, will be required to comply with the requirements as a prerequisite to the registration of any litter on the ANKC Ltd Main Register. Litters which do not meet the above requirements will only be able to be placed on the Limited Register and will be flagged not to be upgraded.

A majority of registered owners within the breed and responding to this survey must be in favour before approval is given by the ANKC Ltd.

## ANKC Notices

### ANKC: AFGHAN HOUND SURVEY

#### **RATIONAL:**

The National Afghan Hound Breed Council does not presently have any rule regarding the minimum breeding age for Afghan Hound bitches so is governed by ANKC Regulations Part 6 Clause 8.2 which states 'the minimum breeding age for bitches across all breeds is 12 months at the time of mating.'

#### **IT IS CONSIDERED THAT AN AFGHAN HOUND BITCH:**

- Is not of adequate maturity to be bred at 12 months of age as she is still developing at this age.
- the Afghan bitch's health is of prime concern to responsible breeders.

For further information, please visit the ANKC website link below: <https://ankc.org.au/AboutUs/?id=3298>
